PORTFOLIO | LINKEDIN | GITHUB

Summary

Full Stack Developer with 2 years of experience in building modern web applications using React.js and the MERN stack, as well as performant mobile apps with React Native. Skilled in crafting intuitive admin dashboards, integrating payment systems and APIs, and deploying scalable products t0 VPS, App store and Play Store. Passionate about UI/UX, performance tuning, and CI/CD pipelines.

Education

Jaya Prakash Narayana College of Engineering, B.Tech in Computer Science Engineering   **July 2019 – July 2023**

- Participated in coding workshops, collaborative development projects, and contributed to tech fests and frontend training sessions

Experience

Frontend Developer, Aptapace Innovative Technologies – Onsite   **Oct 2024 – Present**

1T4 – Carpooling App

- React Native app with Google Maps and Aadhaar KYC for ride booking, live tracking, and user verification.
- Admin dashboard manages settlements, revenue, and booking history. Play Store Link
- **Tech Stack:** React, React Native, Tailwind CSS, TypeScript, MongoDB, Express, Node.js, Razorpay, Firebase Notifications, Aadhaar KYC, Driving License Verification

BookUrAppointment – Healthcare Platform

- Doctor booking system with dashboards for hospitals/admins. Handles slots, analytics, and settlement reports.
- Integrated payments and Firebase notifications. Play Store Link
- **Tech Stack:** React, React Native, TypeScript, Tailwind CSS, Airpay, Firebase Notifications, MongoDB, Express.js

IRIA2026 – Medical Event App

- Event management platform for international doctor summit. Includes registration, analytics, and speaker tools.
- Surpassed **1+ crore** in turnover before launch. Play Store Link
- **Tech Stack:** React Native, React.js, TypeScript, MongoDB, Express, Node.js, Airpay, BuildEX Payment Gateway, Firebase Notifications

SaveFarmer – Agri Marketplace

- Farmers list and sell land, livestock, tools via app built with React Native and Node.js backend.
- Hit **1000+ downloads** in **3–4 months**. Play Store Link
- **Tech Stack:** React Native, React, JavaScript, Airpay, MongoDB, Notifications, Express.js

RaoosAstro – Astrology E-commerce Platform

- Astrology consultation and products purchase platform with booking, shopping cart, and custom CMS.
- Fully responsive and deployed online. raoosastro.com
- **Tech Stack:** React, Tailwind CSS, TypeScript, Cashfree Payment Gateway

Zodeals – Offers & Coupons Aggregator

- Platform to explore coupons, product deals, and upcoming offers across categories.
- Under development with UI using DaisyUI and responsive mobile-first layout.
- **Tech Stack:** React, Tailwind CSS, JavaScript, DaisyUI, PayU Payment Gateway

NonVegElite – Raw Meat Delivery App

- E-commerce platform for fresh meat, seafood, and eggs with category-wise browsing and delivery flow.
- Similar to Licious, currently in development.
- **Tech Stack:** React.js, JavaScript, MongoDB, Tailwind CSS, Express.js, Cashfree Payment Gateway

Junior Software Developer, TechTok4u Pvt Ltd – Remote   **Jun 2023 – May 2024**

Instil – Digital School Management App

- MERN-based web dashboard and React Native app for tracking classes, exams, attendance, and student performance.
- Replaced manual workflows with digital processes for school staff and students.
- **Tech Stack:** React, React Native, Node.js, MongoDB, Express.js

Projects

Coffee Store App — React Native

- Café ordering app with cart system, order tracking, and simulated checkout; optimized using Context API.
- Implemented animated transitions, reusable components, and persistent storage.

Task Management App — React Native

- Personal task app supporting login, add/edit/delete tasks with deadlines using AsyncStorage.
- Context API and React Navigation for state and page transitions.

Quiz Application — MERN Stack

- Role-based quiz platform with real-time scores, admin controls, and secure access via JWT.
- Built using React.js, Redux, Node.js, MongoDB, and Express.

Skills

Frontend: HTML5, CSS3, SCSS, JavaScript, TypeScript, React.js, React Native, Next.js, Redux, Tailwind CSS, Figma
Backend: Node.js, Express.js, MongoDB, REST APIs
Performance Tuning: Component Optimization, State Management, UI Rendering
DevOps & Tools: GitHub Actions, Docker, AWS (EC2, S3), Git, VS Code, Android Studio
Other: Agile Teams, UI/UX Collaboration, CI/CD, Testing, Code Maintenance
